

4/

4/July/2015

Came to know about this type of surgery in 2013 thru a tamil magazine "Aval Doctor". Then I called him and surprisingly that time doctor was here. So immediately I came to see doctor and he gave positive feedback for my uneven skin surfaces in face and skin. Then I was in constant touch with doctor and ordered "Obagi". It was good improvement then decided to take CO2 laser surgery. The surgery was very well and within 2 days, I have returned to my normal life. Easy to reach than the doctors through mobile, whatsapp, mail. All regular channels, they ^{have} monitored via and good improvement, was seen now. Much pleased.. Like to thank the doctor JP and krithika here.

With Cheers,

Note:

Expecting this type of facility what I get needs to be reached to much more needable persons. Hope for that advertisements/articles through local popular magazine will also help. Because I came to know about this facility only through a magazine.
